Message

I was out walking on our street today and stopped to speak with a gentleman at the Hindu Church and asked him why his request for a variance or something which was posted on his property was taken down. He told me that he wanted to be able to park on this side of our street when there was not enough parking on his Church Property, to accommodate the number of members who attended church service. Why is it that we allow and put up with cars being parked on our side of the street pushing into our hedge and leaving deep ruts there? What has happened to "Let's live and let live" as we are 'Citizens of the World' are we not? Think for a minute; be open minded; have a heart; be a 'Bigger Person' than those who relish at being "small minded'. Hoping you will give some thought to my email and that you might even be a good citizen and walk over and speak to this gentlemen. This is a wonderful community to live in, a wonderful community to bring up children, and just a wonderful place to exhibit tolerance. Do people object to all the cars and trucks parked on either side of the street due to the construction of the Building across the street in front of side of St. Mary's Church? [REDACTED]
