Message

Mayor and council,

I want to add my voice to the support for the Hovey/East Saanich development.

The revamped project plans are not such a drastic zoning/ OCP change, aligning much closer. Thus my fulsome support now, which is changed since the new development changes.

I am a very vulnerable senior. Vulnerable because I am a renter and at the mercy of the markets.

The Legion Manor offers hope to me, that one day I may be offered a unit. Then I will be able to live out my years in stable predictable housing. I have been on their wait list, for independent living, for 3 years now.

So selfishly, I support the new development for my quality of life as I age.

Residents of Hovey Rd, just as selfishly, want to retain their present quality of life with single family homes on large private lots.

How many low income (gross monthly income of under \$3000) seniors will gain stability if the development goes ahead?

Sincerely

Please do not publish my name or address. Thank you

Dear Mayor and Council,

Please be advised that we support the current OCP and agree with fellow Central Saanich concerned citizens that no amendment should be allowed for 1934 – 1966 Hovey rd.

Thank you for your time, attention and careful consideration to this important matter.

Sincerely, Christopher and Pamela Ball Central Saanich

Please do not amend the current OCP to permit multi-family dwellings at 1934 - 1966 Hovey Road.

The developer does not have the best interest of the residents of Central Saanich, quite the contrary.

Thank you.

From: sheryl cooper Sent: January 29, 2025 8:46 PM To: Municipal Hall <<u>Municipal.Hall@csaanich.ca</u>> Subject: Decisions

You don't often get email from Learn why this is important Hello,

As a citizen of Central Saanich, I'm trying to understand a recent decision and one being considered by local council.

Firstly, the decision to compulsory purchase land on Hovey for new municipal buildings. In a time when citizens are struggling with the cost of living (and the last thing we need are further increases to our property taxes), why has the council decided that it needs new premises (if it is really concerned about having earthquake proof buildings, surely schools should be a top priority). I'm also very concerned that the prior owners of land on Hovey may now take the council to court (which will of course cost citizens more money). Surely the council should have thought through this compulsory and unpopular decision. Please do carefully consider the next steps.

A second area of concern is the proposed approval of a major development at 1934-1966 Hovey Road. We all agree with the BC Government that we need new housing, however and this is a big however is it appropriate to build a <u>4-storey</u> apartment block in a quiet residential area? As we have seen in other Aryze developments, the company has a habit of demanding amendments very early in the process. *The council needs to adhere to its own Official Community Plan.*

I ask that council carefully consider my and others points, and makes decisions based on the needs and wishes of Central Saanich citizens.

Warm regards, Sheryl Cooper

Subject: OCP Amendment for 1934-1966 Hovey Road

You don't often get email from

Learn why this is important

Dear Central Saanich Municipal Council,

I am reaching out to express my strong opposition to the OCP Amendment for 1934-1966 Hovey Road. Two years ago, we relocated to British Columbia and chose the Saanichton region, specifically our current residence on Hovey Road, after conducting thorough research on the area, with a particular focus on prospective development plans. We were cognizant of the Official Community Plan, and its framework provided us with considerable reassurance that this locale would not become overly populated. It is with profound dismay that we now observe the recent proposals regarding amendments to the OCP for this site. Such an amendment would have a substantial effect on the area, especially regarding local wildlife. I wish to strongly express our disapproval and respectfully urge the Central Saanich Municipal Council to reject the OCP Amendment for the properties located at 1934-1966 Hovey Road and abide by the OCP in future development matters. Kind regards,

Lolo

Hi Sharon,

Thank you for your email and I have been asked to reply as I'm the manager of this application.

The reference to the Saanich Peninsula Hospital and Healthcare Foundation was included at the request of Council. To be clear, the Foundation is not part of this proposal, nor to my knowledge, have they indicated support for the project. As there is a shortage of housing in general and for health care workers specifically, Council is aiming to have housing being offered to hospital staff so that some of the shortage may be addressed. The covenant would require the developer to show that they would have reached out to the Foundation first, before offering the units to the wider public.

The right of first refusal is a legal term meaning that one party is offered the right to accept, or have access to, something (in this case a housing unit) before other parties are invited, such as the broader public. The term pre-leasing is meant to indicate that, once the units can be occupied, for one whole month prior to anybody from the wider public securing a lease with the property owner, the units be offered to the Saanich Peninsula Hospital workforce. This is to provide somebody from the workforce early access to a unit and ensures the owner still has a reasonable time after the units may be occupied to rent out all other available units.

The 'designed' is in reference to the units not being large single-family dwellings or only studios or other single-sized units in a building. With the variety in unit size, the buildings offers a wide range of housing options and therefore, can be considered suitable for workers in various stages of life/career, e.g. studio for a single person up to 3-bedroom for a family. It is not in reference to the architectural features of the building.

Hope the above helps but please do not hesitate to reach out if you have any further questions.

Kind regards, Ivo

Some people who received this message don't often get email from Learn why this is important Mr. Matanovitsch,

Further to my previous email, I am aware that these are questions that cannot be answered at the meeting tonight, as they relate to a proposal going to public hearing.

Sincerely, Sharon Glynn

Sharon Glynn

On Jan 27, 2025, at 12:52, Sharon Glynn wrote:

Jarret Matanowitsch Director of Planning and Building Services

Dear Mr. Matanowitsch,

I have several questions regarding the council report for this evening's meeting, relating to 1934 Hovey Rd.

Question 1. Healthcare workers housing.

Under Recommendations 5 it states:

That prior to consideration of adoption, a covenant be registered to secure: a. That in collaboration with the Saanich Peninsula Hospital and Healthcare Foundation, the market rental units are offered to hospital staff before being offered to the wider public

e. Right of first refusal for one month pre-leasing to the Saanich Peninsula Hospital workforce for units in the west building.

Why is the Saanich Peninsula Hospital and Healthcare Foundation included under the recommendations? In the Saanich News article shown below, it is clear that the foundation has no agreement or partnership with this development.

This is a quote from the article:

Editor's Note: This article originally stated the housing project was planned in collaboration with the Saanich Peninsula Hospital & Healthcare Foundation. The foundation agreed to share information about available housing in Central Saanich, but was not consulted with or partnered on this project. The foundation has no agreement of support, formal or informal, with Aryze Developments.

Also, in early January, I spoke with Deborah Rogers, Director of Communications for the Hospital Foundation. She once again confirmed they are not involved with this development.

I know that Aryze has consistently made this claim in their promotions and website, and it has been repeated time and time again in the press.

Isn't it time we removed the reference to the Foundation and to housing for healthcare workers in this proposal?

Question 2. Right of first refusal for one month pre-leasing to the Saanich Peninsula Hospital workforce for units in the west building.

What exactly is a "right of first refusal"? Is this a planning term or a legal term? And what do you mean by pre-leasing?

Question 3. Relating this to the OCP.

Section 10 of the OCP indicates "encourage development applications that address identified housing gaps. In particular, favourable consideration, will be given to:

g. proposals **designed** for workforce housing, including farmworkers healthcare, an emergency personnel

Can you clarify to our council and citizens that the market rental building was not **designed** for workforce or healthcare housing and it does not meet this test.

I sincerely, appreciate your time in reviewing and responding to my questions.

Sincerely,

Sharon Glynn Central Saanich

-----Original Message-----From: Janet Warren **Sent:** Friday, January 31, 2025 10:37 AM To: Municipal Hall <<u>Municipal.Hall@csaanich.ca</u>> Subject: Hovey Road Development

[You don't often get email from Learn why this is important at <u>https://aka.ms/LearnAboutSenderIdentification</u>]

To Council,

I agree with the housing proposal for Hovey Road. Housing is desperately needed and the developer has made alterations and has lowered the height. The Legion proposal is a long time coming. It would provide much needed homes for senior Veterans.

OCP's no longer hold weight since implementation of the new housing rules. I recently moved from Gordon Head where the OCP allowed for 6 stories along Mckenzie, Shelbourne and Gordon Head. This past year buildings have been approved for 18 stories that will back onto residential single family homes. The 18 storey buildings will replace the Nelly McClung library, the Uvic owned Racket Club site and on existing CRD housing town houses along McKenzie and Gordon Head.

These 4 stories are not very heigh compared to what's going on and needed in the rest of the municipalities. They should be approved. Homeowners have already agreed to sell their homes to make it possible. I think if it's postponed it could eventually end up 10 or more stories like every where else.

Sincerely,

J. Warren 1287 Verdier

From: Sent: To: Subject: Gord Clarke Thursday, February 6, 2025 1:32 PM Municipal Hall Article in Peninsula Review

Mayor Windsor and Council

We have just finished reading the back page of the February 6th, 2025 issue of the Peninsula Review.

We were shocked to read the information presented by Aryze for the development proposed for 1934-66 and 7511 East Saanich Road.

Aryze openly states that this development adheres to the Official Community Plan. This is entirely incorrect. The development does not adhere to the OCP adopted in 2023.

They go on to state that Central Saanich is in need of housing.

I would like to point out that Central Saanich has two projects either underway or just finished that provide a sizeable contribution to the current Provincial Housing mandate for the district.

- 2515 Hackett Crescent (The Bella Vista) that provides 235 units, Studios, 1- Bedroom, 2-Bedroom and 3-Bedroom units. The rent for a studio is currently from \$1875 a month and currently starts at \$3211 for a 3-Bedroom.
- 7701 East Saanich Road, a development currently underway that will afford 61 units of which rents are to be determined.

Aryze states that the partnership with Legion Manor Victoria will provide 57 affordable studio and 1-Bedroom units dedicated to seniors and veterans. This east building will be <u>owned</u> and operated by Legion Manor Victoria.

The Legion Manor Victoria, located on East Saanich Road, occupies only 30% of the land at this address. Central Saanich has long proposed densification. Legion Manor Victoria is in partnership with Aryze and will <u>own</u> and manage the proposed east building. Why is the 57 unit building therefore not being constructed on the property Legion Manor Victoria <u>owns on East Saanich Road</u>?

We also take offence to this letter from Aryze listing a number of supporters. Many of these supporters are from the trades that will directly benefit from this build or any other build.

I think that you as Mayor and Council are well aware of the public push back for amending the OCP and allowing this project.

If the OCP is amended for this project it could have a very detrimental impact to other residential areas involving future development.

To: Municipal Hall <<u>Municipal.Hall@csaanich.ca</u>>
Subject: 1934 Hovey Rd

Please do NOT change our OCP to allow this development. We do not need more expensive rentals that no one can afford. Facebook marketplace and Craigslist have literally thousands of available rental listings. It's not a shortage of rental units, it is a case of rent being too high!! We cannot trade off a minuscule addition to affordability in exchange for a huge addition of unaffordable rental units that become cash cows for investors and strains our infrastructure.

Marigold Lands project is morphing into a very high density grouping of rental buildings that was never envisioned for this property. The two new building are not even full, and yet there are even more in the development stage. There has been zero progress at 1932 Mt Newton Cross Rd in 2+ years. We need a better plan for Central Saanich not just more of the same that helps nobody but developers and investors.

Cher Beattie

WITHOUT PREJUDICE

To:

Mayor Windsor Councillor Paltiel, Councillors King, Riddell, Newton, Thompson, Graham District of Central Saanich

Subject: Request for Recusal of from 1934 Hovey Rd. Deliberations

Dear Mayor Windsor and Members of Council,

We formally request that **a second formally recuse a second** from all discussions, motions, and votes related to the 1934 Hovey Rd. proposal. Public confidence in municipal decision-making depends on elected officials being **free from actual or perceived conflicts of interest.** Given **a second perceived** professional affiliations in the development industry, campaign backing, and prior advocacy patterns, **a second** continued participation raises reasonable concerns about impartiality.

Concerns Regarding Conflict of Interest

1. Professional Affiliations and Industry Ties

These roles **involve direct engagement with land use planning, municipal development, and policy advocacy**—areas that overlap with duties as a councillor.

Furthermore, **Section 5** has established business relationships with Aryze Developments, the proponent of the 1934 Hovey Rd. project (<u>Source: Citified Victoria</u>). Both companies are also active members of the Urban Development Institute (UDI), a registered lobbying body that has engaged with BC's Minister of Housing, Ravi Kahlon (<u>Source: Urban Development Institute / Anne McMullin, President & CEO - 12-Month</u> Lobbying Summary - Lobbyists Registry - Office of the Registrar or Lobbying of BC).

Given these industry ties, there is a **reasonable public perception that impartiality may be compromised** in this matter.

2.

.../2.

*See attached supplementary Appendix for further information on UDI, Kahlon".

2. Election Campaign Contributions & Advocacy Patterns

Public records from Elections BC (Source: FRPC - Local Election Contributions Search Results) indicate that received notable financial contributions from development industry donors.

3. The Motion for a Revote

•• • • •

On October 21, 2024, the 1934 Hovey Rd. proposal was rejected in a 3-3 vote (Source: Central Saanich Council Meeting Minutes, Oct. 21, 2024).

a motion for a revote, despite the absence of new substantive information.

While a revote itself is not inherently improper, in this case it raises serious concerns about neutrality and fairness—especially affiliations with the development sector.

4. Legal and Governance Considerations

British Columbia's Community Charter (Division 6 – Conflict of Interest) sets clear ethical guidelines for municipal officials:

- Section 100 Disclosure of Conflict: Elected officials must declare conflicts of interest and recuse themselves from decision-making where an actual or perceived conflict exists (Source: BC Community Charter).
- Section 101 Use of Influence & Confidential Information: Officials must not use their position to further personal or associated business interests, directly or indirectly.

Even when there is no direct financial benefit, **public trust requires elected officials to** err on the side of transparency.

The BC Lobbyist Registry confirms that UDI, of which Aryze Developments and are members, has actively lobbied Minister Ravi Kahlon regarding prodevelopment policies (Source: BC Lobbyist Registry). Best practices in governance dictate that council members must remove themselves from decisions where an industry affiliation creates a reasonable perception of bias.

5. Request for Recusal

To maintain the integrity of our local government process, we formally request that recuse from all further discussions, motions, and votes related to the 1934 Hovey Rd. proposal.

Further, we request that Minister Ravi Kahlon's public advocacy for this project be reviewed, as his engagement with UDI, Aryze, and related entities raises concerns about external pressure on municipal decision-making.

6. Upholding Public Confidence in Governance

Previous Central Saanich councillors have recused themselves in cases where **even a perception of bias existed.** We urge to uphold this precedent to maintain public trust. Failing to do so risks eroding confidence in the council's decisionmaking and ethical standards.

Lastly, we assert our rights under **Article 10 of the Human Rights Act** and **Section 2(b) of the Canadian Charter of Rights and Freedoms,** which guarantee the right to raise governance concerns in matters of public interest.

We would appreciate your commitment to transparent and accountable leadership.

p.3

Sincerely,

From these Central Saanich Citizens:

۳.,

*Appendix

We also wish to raise concerns regarding Luke Mari's involvement. As a leader of Aryze Developments, which is advocating for the 1934 Hovey Rd. project, Mr. Mari previously presented at more than one Urban Development Institute (UDI) event, where he presented the idea of pre-zoning under the titles; "The future of Infill is Zoning Reform Presented by Luke Mari, Partner, Talk to Aryze" and "September Lunch: Infill Development-Accommodating Growth in the Capital Region." Pre-zoning takes away public input from the zoning process by denying public hearings on rezonings. Despite offering opposition to public input on zoning processes, Mari's Aryze developments have not been known to deliver on affordable housing units.

The alignment of Aryze and UDI's advocacy efforts with the project's goals underscores the perception of interconnected interests that may not align with the community's interest and well being.

Of additional concern, Minister Kahlon himself has been lobbying the District of Central Saanich in favor of this development. As a senior government official, his public advocacy for this specific project raises significant questions about impartiality and the potential for undue influence in the decision-making process.

A letter from Premier Eby dated April 26, 2022 to the neighbouring District of Saanich by Eby supporting an Aryze development (520 Normandy Rd.), highlights a recurring pattern within the Ministry of Housing's leadership under the NDP government. Mari appears to have connections to the party leadership, as evinced by a photo op that was taken with Mari standing next to Eby and former Minister of Transportation Rob Fleming, along with Saanich's Mayor, where the politicians are holding up a sign called "Homes Near Transit", as seen on the government's website (see link at end). Another government photo op featured Mari standing in front of a podium with the word "Homes for People" on it, with Eby and Victoria's Mayor Alto standing behind him. Aryze developments Instagram wrote about this: "Today Luke joined Premier David Eby and Minister Ravi Kahlon in announcing a new housing action plan. The plan, called "Homes for People". The plan contained many of the policies Mari, and the UDI had advocated for, and the UDI had lobbied Minister Kehlon and Eby, considerably. According to the BC Lobbyists Registry. In this regard, Mari's involvement with the notably similar named "Homes for Living", a third-party electoral organization that endorses local government candidates for election based on how close they are to the developers' agenda (that endorsed the majority of the councillors that were elected in 2022, in both the City of Victoria, and in the District of Saanich - further underscores potential for undue influence on the political process and may suggest deeper links to housing initiatives shaped by the NDP and UDI influence. In early 2003 the Chair of the UDI Capital Region, at the time was observed using the "Homes For Living" Discord channel to recruit people to speak at a public hearing in favour of the development proposal of the company he works. When combined with the established connections between Aryze, and the UDI, this creates a perception that external pressures, rather than community interests, could unduly shape council decisions on this matter.

Subject: 1934-1966 Hovey Road

You don't often get email from Learn why this is important

Central Saanich Mayor and Council,

I am writing regarding a proposed amendment to our Official Community Plan which includes a

development for 1934-1966 Hovey Road.

This project was (barely) denied by council a few months ago even though it violates the OCP and it appears to be on the table again.

The developers are well aware of the OCP, but seem to believe that Council will cave in. Hopefully, this is not the case. The OCP is a contract between the citizens of Central Saanich and the elected citizens (Mayor and Council) who uphold its regulations. The municipality has had unprecedented interference by provincial offices lately, which has resulted

in much infilling and the quiet ratification of a six storey apartment block off Verdier which has inadequate parking and rental units that make a mockery of low income rentals. But, as outlined by Central Saanich Citizen Voices, we have more than completed the number of new residences demanded by the Provincial Government.

There is no urgency therefore to create more density, to create an apartment -block landscape or to eliminate neighbourhood housing. In fact, there is an urgency to strictly adhere to the

OCP as it is currently set out.

It is extremely disappointing that three council members voted in favour of this project in its initial iteration even though it was in violation of the OCP. Ardze Developments has a

poor track

record for carrying out its obligations and is grasping at straws when it states that the building will magically house health workers and that they will establish transit to and from

Saanich Peninsula Hospital: a true act of desperation on their part.

The pace of development in Central Saanich is already very healthy from a development perspective and doesn't need Council to ratify inappropriate projects that are not in keeping with our OCP.

Thank you for reading this letter.

Sincerely,

Gwen Curry

Subject: Hovey Road Development

Some people who received this message don't often get email from Learn why this is important

This letter is being sent for the Council Meeting on Monday, 10 Feb 2025, which I hope the proceeding do not continue to be delayed.

Dear Mayor and Council,

Ever since my grandparents move here in 1947, and with my father coming out every year to help look after their affairs, I have learned about the area my whole life. In fact, when I moved out here in 1974, my first job was with the Tourism Information for Saanich Peninsula. I have seen this municipality grow from strawberry fields and pasture that turned into housing. This municipality has grown so much, starting over 100 years ago, and continues to grow. Where do we put them? Though, as a side note, I have noticed that most living in Central Saanich do not work and spend in Central Saanich, especially those that live on the fringe surrounding a business core. But, that is why the municipality developed the OCP so that the ALR is protected from Residential use and the ALR has 6 levels of use for agricultural purposes. The OCP is a guideline, that I have seen amendments made 2-3 months after being published, for various developments! With people wanting to come for the "quiet" rural life, the price of land and cost of living in Central Saanich is so high that only the upper income and upper middle income (according to Canadian survey of \$220,000+ household income) can afford to life here.

That leaves out most of the workforce that the community needs to serve our businesses and medical facilities. I believe that is one of the reasons that there has been problems at the Prosser complex, lack of staff. Lack of staff is also one of the reasons that the hospital has been having early closer and one of the reasons for lack of staff is affordable accommodations that Aryze is trying to provide, with the blessing of the Tsawout First Nations. At the same time, seniors looking for independent and assisted living are having to wait 3-7 years, if not more, unless the medical prioritize them on the waitlist, and this is not just Legion Manor. We need to start building up on the available land that is present and becomes present to keep our community vibrant. The cost of construction and land demands higher density to keep our accommodations affordable, which, at present, is not for anything less, thanks to the rising cost from the pandemic. It is also why we are having a growing population, over more than 35 years, of homeless, some are working homeless, in our area. Just take a look in areas like the woods of Centennial Park, Heritage Acres, parking lots, etc. Most of this building should have been started earlier, where the infrastructure supports it. In fact, according to Central Saanich chart in January's agenda, the amount of rentals, both built and planning to be built, does not keep up with the population growth. Even in the news, it stated that research says that the number of rental properties in both Lower Mainland and South Vancouver Island should be almost double of the government targets for all municipalities and cities! In other words, even though Central Saanich is ahead of its targets, it is still not enough. Projects in Brentwood Bay, Keating or even Marigold does not help Saanichton or the hospital, especially when we have extreme bad weather, like Blizzard of '96, where the only workers available are within walking distance of the business core. Thus, we need more affordable housing within the Urban core, thus we need taller buildings to help keep the cost down and we need it NOW.

Council has already approved a Plan for Seniors last year, and most seniors do not want to live in a busy business core. They want to live in an area like Legion Manor, with their services, and the senior population is growing. It thus makes sense for Saanichton to have a senior building, next to the current location to accommodate the growing need, and maybe a chance to upgrade the current buildings as the non-profit organization is able. Maybe, those who are against the proposed building on Hovey would like to make a HUGE donation, so they can accommodate those that are against wishes.

Aryze, along with Legion Manor, was kind enough to try to let the community

know what their new proposal is, that was trying to accommodate the community concerns. Unfortunately, the meeting started with the same naysayer vocal group, stating a lot of the same inaccurate, misleading information of the orphaned property at the end of Hovey. They were upset when it was pointed out about the other ALR properties that are at the end of Hovey Rd. They, then, made a personal attack on myself and family (not the first on myself or other sellers), stating another inaccurate, false statement that I shouldn't care as I got my property for FREE! There was even attacks on Aryze, which they would not allow the owner to respond when he attempted to answer what his staff was unable to. It would have been pointless for him to continue, as that group were not willing to listen and tend to twist what was said. This is the type of inaccurate, misleading information that is presented to the public. Even the fact that one of the Directors of Legion Manor was part of the planning of the OCP was dismissed. The rest of those attending were more open-minded and appreciated what was presented. The main concerns that they did have were more directed to Council's responsibilities, like the angle of Hovey Road on the west side of East Saanich (even the buses have difficulties in turning when it's bad weather or vehicles parked on boulevard, close to corner), night lighting along East Saanich from Cultra south (making it unsafe for seniors and other pedestrians) and not enough safe crossings.

In closing, our family wishes to remain in Central Saanich where our deep roots are (though not as deep as other pioneer families and the First Nation). Since the OCP has come out, there has been a lot of new information and opportunities come to light that requires another look and necessary changes made. The Hovey Development would bring life back into the community, just like the 7 houses built at the corner of Hovey and East Saanich, about 30 years ago which some had rental suites to help pay for housing then, but we need different type that is more suited to the changing needs of today's society. No one likes change, our family included, but change is needed to keep vibrant, or the community dies. So, these properties are well-suited in location to Legion Manor, transit, Centennial Park and its sport fields, walking trails, schools and its bus services, as well as today's needs, which our family along with the other four families are willing to make the change. If this is really the wrong location, then what properties that meet the needs of seniors and affordable housing for our workforce that can be started within the next 6 months? There are seniors and veterans wishing to remain in the community and would like to downsize to a senior community, preferably yesterday, which is why I ask what is the

right location in Saanichton, that has within 6 months starting build-time? Action is needed now, and our citizens need to be open-minded with solutions that benefits the whole community.

Subject: Hovey Rd Public Hearing

Dear Mayor and Council,

I'm deeply concerned about the proposal by Aryze Development and the Legion Manor to dramatically alter the neighborhood on Hovey Road. As has been pointed out in many letters and media reports, the project does not comply with the letter or the intent of the OCP.

Furthermore, it is highly disruptive to that neighborhood and the residents while there are other more appropriate sites closer to Saanichton Village for new housing, including on the Legion Manor's own land.

We have lived in North Saanich since 2002 and lived in Central Saanich for 20 years prior to that. We have always been concerned with good governance for all of the CRD.

The recent full-page letter in several newspapers from the Legion Manor and Aryze also raises red flags. While providing several paragraphs touting the presumed benefits of the project and making the usual heart-string appeals, it glosses over the intended contravention of the OCP provisions. In fact, "... the project's thoughtful design, which reflects community feedback and adheres to the Official Community Plan (OCP)." is simply wrong.

During the meeting that they hosted on January 15, public sentiment grew progressively more negative. If public sentiment towards this project was positive, then why the need for an expensive full-page promotional piece, ostensibly supported by over 70 mostly commercial interests?

However, I feel that the low point of the letter is the threat that this and other projects "will be built elsewhere" if "Central Saanich cannot offer a clear path forward..." This aggressive stance plus the comments about monitoring the behavior of municipalities and moaning about their entirely speculative investments of over \$1 million, again signals the sense of entitlement fostered by their provincial lobbying group, the Urban Development Institute.

Despite the high toned language ("... our shared mission to support vulnerable populations..."), this really is just a commercial opportunity that could "be built elsewhere." Perhaps it should be.

That might open the way for a more community friendly proposal, in a better location that might offer more than only 13 affordable units.

Perhaps a careful re-reading of the recently revised OCP before investing their funds might improve their return on investment and spare them the extra cost of public meetings and full-page ads. Not to mention sparing the residents, especially those neighboring the project, considerable anguish and expense. Aryze chose the location, not those living on Hovey Road.

There is only one group entitled to the attention and support of the Council and that is the residents.

Especially in these times, a bullying approach is inexcusable and should make it very easy for Mayor Windsor and the Councillors to reject this application without the need for the expense and time for a public hearing. I think that the public sentiment regarding this proposal is already quite clear.

After all, you are employed by the residents of the municipality, not the development community, and are obliged to respect the wishes of those residents and the intent of the OCP.

--

Sincerely, Springfield Harrison, North Saanich

via email: ryan.windsor@csaanich.ca

Dear Mayor Windsor,

Re: Proposed affordable housing development - 1934 Hovey Road

As British Columbia's Seniors Advocate, I am responsible for analyzing and monitoring systemic issues important to the welfare of seniors in B.C. and advocating to protect their interests. My office monitors five key areas of importance to seniors: health care, housing, income supports, community supports and transportation. The ongoing challenges related to the availability and affordability of seniors' housing are issues my office monitors closely. We regularly hear from seniors and their loved one about their challenges finding accessible, affordable housing and asking for help to avoid homelessness when their circumstances change.

I am encouraged to hear council will further consider the proposed development at 1934 Hovey Road. It is an excellent example of purpose-built affordable housing to help local seniors to age in place and supports our health care system by providing much needed housing for medical professionals. As you are likely aware, the vacancy rate for one-bedroom apartments in B.C. has dropped dramatically in recent years and was 1.1% in 2022. Meanwhile, applications for seniors subsidized housing increased 20% between 2022 and 2023, with 11,459 people on the waitlist in B.C. Supporting low-income seniors and health care workers to live well in their chosen community in a development such as the one proposed would be a significant step to bolstering a healthy, diverse and prosperous community as outlined in your Official Community Plan. The development would also promote housing diversity for residents of all incomes, ages and abilities.

As you engage further with your community to determine what role a project like this may play in the future, my hope is that you continue to fully consider these types of developments. They will play a key role in supporting seniors to age within their communities and provide critical housing to enable workers to live near where they are employed. Access to affordable housing is a high priority for older people in B.C., and an issue my office is continually monitoring as seniors throughout the province have identified housing insecurity as a major concern.

1-877-952-3181 www.seniorsadvocatebc.ca I welcome a conversation about your municipality's efforts to support affordable housing for seniors in your area at your earliest convenience. Please contact my coordinator Susan Lewis at <u>susan.lewis@gov.bc.ca</u> to arrange a meeting.

Sincerely,

Dubert

Subject:	Aryze latest attack on Central Saanich and variances

To Mayor, Council and Staff of Central Saanich

Brian and I are writing to you once again about Aryze. This has become a nightmare and getting worse by the week!

Big Business Aryze is exposing who they truly are, again.

The excessive words and **sector** written in the latest whole page article is a clear attack on Central Saanich and our neighbourhood.

Imagine the cost of that page they put in? How can a group of citizens without a corporate budget or staff afford an add of this scale?

We now know the media is controlled. A few Op-eds have been written to the TC by our group and have not been published.

The difficulty in being heard is extremely frustrating and unfair making this a very unlevel playing field by regular citizens who are fighting for the GOOD OF ALL.

This is heavy lobbying with resources unavailable to us the citizens of Central Saanich actually affected.

This clearly sets aside the heart string, humanitarian aspects of this project and is really showing what it is, a commercial plan with a threat!

We find it incomprehensible for a developer to not only expect a change of our OCP for his spot rezoning plan but already asking for 8 variances off the bat!

This project has become a nightmare.

Still too big, still too high for the location regardless of who it is for.

This game should have been over a long time ago.

Holding the line for our community.

Josée and Brian Smith

Subject: Agenda Item 12.2.2 1934 Hovey Rd - Revised Proposal (January)

You don't often get email from Learn why this is important

Regarding Agenda Item 12.2.2 1934 Hovey Rd – Revised Proposal (January)

Dear Council Members,

I am writing to express my hope that council members will vote against the recommendations stated in the agenda because the development proposal does not conform to the current OCP.

While I appreciate there is need for housing the district, it is apparent that the Legion Manor has failed to take heed of the advice of council a few years ago when they proposed a development on Kersey Road behind the local Fire Hall. At that time, the Legion was advised to look to develop according to the currently allowed land use and make every effort to gain support from the residents in the neighbourhood.

Instead, again the Legion Manor has chosen land that would require rezoning and change to the OCP and partnered with a developer that, in my opinion, has done it's most to generate a TOXIC division in the community through advertisements in news media and letters of support from organizations and businesses that are not Central Saanich based.

While I am certain that the Legion Manors intentions are altruistic, in cases such as this, I think that we all need to look deeper at the businesses and organization directly involved in the project and their supports. This includes ensuring that we reduce the future need of low cost housing by asking:

- Do they pay all employees at least the living wage for the Victoria area? (Currently, \$26.78 per hour.)
- Do they ensure that they have adequate pension plans for there employees to ensure that when retired that the former staff will have the means to live in housing of their choice?
- Do they work to ensure that affordable childcare is available for their staff?

Lastly, I do hope that you share my puzzlement for why The Legion Manor did not attempt to buy and build on 7865 E Saanich Rd where there is currently a proposed development application. In this case, I would have expected community support as the location is not convenient walking distance of a variety of stores and services.

With sincere respect, Ken Steffenson 1628 McHattie Rd Brentwood Bay, BC V8M 1X1

Learn why this is

On Feb 7, 2025, at 1:35 PM,

Some people who received this message don't often get email from important

Dear Mayor Windsor and Council Members. I am writing this letter in support of the proposed housing development at 1934-66 Hovey Road and 7551 East Saanich Road. In 2015, the cost of a detached single family home in central Saanich was \$707,000.00. Currently the average cost is \$1,441.000.000. Unattainably for a family. The cost of a condominium in 2015 in central Saanich was \$300,000.00, currently \$560.00, a townhouse in 2015 in central saanich was \$457,000.000, currently \$847,000.000. In 2015 the average rent in central saanich was \$957.00. Currently, \$2,388.00. Over the past 10 years, home ownership has risen 100 percent and rent has risen over 100%. Veterans, seniors on fixed incomes have not had such increases, either have essential workers. We are in a housing crisis! I have senior friends who live in central saanich who are on fixed incomes. Every month, their rent alone is over 50% of their income, leaving the rest to cover, food, utilities, medications etc. Each month I accompany my friends, to available rental units in hope that they can secure a home that is less than what they are paying. Each month we leave disheartened. With the rising costs of basic needs, rent, food, and other staples, it is becoming more and more difficult for them to meet these basic costs. I am a daughter of two veterans, who went to war, without a consideration of their well being or safety, only to hope for a better world in return for their sacrifice. Now, it is our responsibility make sure that we secure safe, affordable housing for these populations. You, Mayor Windsor and council members have the power to do the right thing and approve the proposed housing development at 1934-66 Hovey Road and 7551 East Saanich Road as presented by Legion Manor Victoria in partnership with Aryze. Regards

Rebecca Tiede.

Subject: Proposed development for 1934-1966 Hovey road

Some people who received this message don't often get email from Learn why this is important

Dear members of council: I wish to express my concerns about the development proposed by Aryze Developers for 1934-1966 Hovey road. I am not opposed to building more homes in Central Saanich and increasing density, but it must be done within the OCP and sensitively to the surrounding area.

My concerns about the project proposed by Aryze are as follows:

1. The OCP zones this stretch of Hovey road as residential but the Aryze proposal would be multi-unit and of a greater density than the OCP allows

for.

2. Aryze was claiming that the development will contain market rental units with housing for health care workers but Saanich Peninsula Hospital and Healthcare Foundation has stated it has no agreement of support, formal or informal with Aryze Developments.

3. I have read of some controversy in Victoria related to another project that

Aryze built which was meant to have low cost housing but did not do so in the end.

4. Early on Aryze sent to my door a charming young man to try and persuade me of the benefits of this project. That immediately made me suspicious as why would they need to do so if the project was genuinely in the best interests of the community.

I wish to urge you to cancel this proposal from Aryze, and reconsider better ways of increasing housing while operating within the guidelines of the OCP and find a Devel

Sincerely,

Linda van der Kamp

Dear Mayor and Council;

The Saanich Peninsula Memorial Park Society would like to add our support for the proposed development at 1934 Hovey Road.

Our organization was constituted to commemorate those who gave their lives in service to Canada in time of war and peacekeeping by managing lands and facilities and delivering services, programs, and productions for the community, cultural, athletic and recreational benefit of the residents of the Saanich Peninsula. Although our focus has largely been on programming and providing space for community activities, we have not lost sight of our commitment to veterans and the importance of honouring their sacrifices to our country.

There is limited availability of affordable homes on the Saanich Peninsula. The Legion Manor has filled a need in this community, offering accommodation to

veterans and seniors for decades. It is clear their model of operation works and there is a long wait list. What is offered at the Legion Manor is community. We can talk about units or suites, but what they offer, is a home, *for people*.

What we know from our own experience of shepherding the Mary Winspear Centre through the idea stage to it being a fully functioning building, is that it required collaboration. Without for-profit partners and funders, our project would never have been realized. It takes strategic alliances to produce great results; the South Vancouver Island Housing Society could never achieve this level of growth without the experience of a partner such as Aryze.

If this development is not approved, the likelihood of this scope of resources being expended to attempt another, is near zero. Aryze has the necessary expertise and has demonstrated a willingness to accommodate the requests of stakeholders in an endeavour to address a shortage of housing. We encourage Council to refer this project to a public hearing.

Sincerely,

Denny Warner (she/her) Mary Winspear Centre Executive Director Ph: 250-656-0275 ext 223 Direct line: 778-426-3294 www.marywinspear.ca

We respectfully acknowledge that our operations are carried out within the ancestral, traditional territories of the SET, TINES – WSÁNEC people.

Subject: Aryze Development Hovey Rd.

You don't often get email from

Learn why this is important

Dear Mayor Ryan Windsor,

I am writing to further voice my objection to the proposed Aryze development on Hovey Rd. at East Saanich Rd.

While I am supportive of increasing housing, and in particular, for seniors, low income and vulnerable people, I do not believe that this location is appropriate for such a high density project.

- The Legion owns and operates housing on the adjacent 5 ½ acres. This housing is aging and will need to be replaced shortly: a perfect opportunity to increase density on land they already own.
- Hovey Rd properties are on the edge of a small, well established neighbourhood. To shear off almost the entire side of one street is to whittle away at the integrity of this neighborhood. It also 'orphans' one house at the east end of the street, which is against the principles of the OCP.
- 3. Even though Aryze has adjusted the proposed height it will still be a huge four-storey "wall" of apartments facing the single family homes remaining on the south side of Hovey Rd.
- 4. The increase in traffic will be significant. Bus service is not sufficient for residents to rely on. (My daughter has been left stranded several times at the foot of Stelly's as a full bus sailed by.) Bus connections are not frequent or interconnected enough for reliable transit. The idea of residents cycling may be possible for the few residents physically fit, and without young children, on package-free errands, in good weather. But the reality is in our municipality most adults own and drive a car. In my own neighbourhood you can identify the

number of adults in a house by the number of vehicles parked in driveways and on the road. Decreasing vehicle use may be a goal worth pursuing, but we are not there yet. The increased traffic will have a huge impact on East Saanich Rd, and the west portion of Hovey Rd.

5. By far the greatest objection is the disregarding of the Official Community Plan. This project is NOT in compliance with the OCP. The company has been very clever in using other terms that seem to suggest that it is in compliance, but it is not. The project would set a precedent, and serve notice that no property owner in Central Saanich can count on the OCP being upheld. Trust will be destroyed. In effect, we would all be hostages to the dreams of developers and the whims of council members.

I strongly urge you to reject this proposal as being noncompliant with the OCP, and to ask the developer to find another location that is within the OCP.

Yours truly, Maureen Watters 2157 Tanlee Crescent Saanichton

Page 1

PETITION

To Central Saanich Municipal Council

Save Our Neighbourhoods & Hovey Road from Development that Violates our Official Community Plan

With regard to the Official Community Plan (OCP) Hearing to allow a Multi-Unit development at 1934–1966 Hovey Road, we the undersigned strongly emphasize that the Central Saanich Municipal Council is accountable to us as residents and taxpayers and should abide by our Official Community Plan which was developed over a 3 year period with citizens advisory groups, extensive public engagement, professional consultants and substantial cost.

- 1. Council abide by the Central Saanich Official Community Plan (OCP) and deny this OCP amendment
- Council continues to abide by the Official Community Plan in future development matters unless or until the OCP is changed at a future review process involving public input.

PETITION

To Central Saanich Municipal Council

Save Our Neighbourhoods & Hovey Road from Development that Violates our Official Community Plan

With regard to the *Official Community Plan* (OCP) Hearing to allow a Multi-Unit development at 1934–1966 Hovey Road, we the undersigned strongly emphasize that the Central Saanich Municipal Council is accountable to us as residents and taxpayers and should abide by our *Official Community Plan* which was developed over a 3 year period with citizens advisory groups, extensive public engagement, professional consultants and substantial cost.

- 1. Council abide by the Central Saanich *Official Community Plan* (OCP) and deny this OCP amendment
- 2. Council continues to abide by the *Official Community Plan* in future development matters unless or until the OCP is changed at a future review process involving public input.

PETITION

To Central Saanich Municipal Council

Save Our Neighbourhoods & Hovey Road from Development that Violates our Official Community Plan

With regard to the *Official Community Plan* (OCP) Hearing to allow a Multi-Unit development at 1934–1966 Hovey Road, we the undersigned strongly emphasize that the Central Saanich Municipal Council is accountable to us as residents and taxpayers and should abide by our *Official Community Plan* which was developed over a 3 year period with citizens advisory groups, extensive public engagement, professional consultants and substantial cost.

- 1. Council abide by the Central Saanich Official Community Plan (OCP) and deny this OCP amendment
- 2. Council continues to abide by the *Official Community Plan* in future development matters unless or until the OCP is changed at a future review process involving public input.

Hi there,

Thank you for the information and all of your work on this. Yes. I confirm for the petition to deny the OCP amendment at Hovey road.

I will send an email to council as well.

Thanks! Ben

wrote:

Hello Ben,

Thank you so much for your support and for your message! There will be a public hearing announced tomorrow, and we will let you and all of our supporters know the date.

In the meantime, it is very helpful if you can send a message to Council. I recently met with the mayor and a councillor, and they confirmed the importance of hearing from the public.

To send to the whole group - Copy and paste into your email program: ryan.windsor@csaanich.ca,chris.graham@csaanich.ca,zeb.king@csaanich.ca,bob .thompson@csaanich.ca,sarah.riddell@csaanich.ca,gordon.newton@csaanich.ca,niall.pal tiel@csaanich.ca,municipal.hall@csaanich.ca

** I also just want to confirm that you are referring to the Petition regarding Hovey Road, to Deny the OCP amendment. (Just to make sure your signature is valid)

With sincere appreciation,

Sharon Glynn Central Saanich Citizen Voices

Save Our Neighbourhoods & Hovey Road from Development that Violates our Official Community Plan

With regard to the Official Community Plan (OCP) Hearing to allow a Multi-Unit development at 1934–1966 Hovey Road, we the undersigned strongly emphasize that the Central Saanich Municipal Council is accountable to us as residents and taxpayers and should abide by our Official Community Plan which was developed over a 3 year period with citizens advisory groups, extensive public engagement, professional consultants and substantial cost.

We, the undersigned residents of Central Saanich request that:

- 1. Council abide by the Central Saanich Official Community Plan (OCP) and deny this OCP amendment
- 2. Council continues to abide by the Official Community Plan in future development matters unless or until the OCP is changed at a future review process involving public input.

P E T I T I O N To Central Saanich Municipal Council: Save Our Neighbourhoods & Hovey Road from Development that Violates our Official Community Plan

With regard to the Official Community Plan (OCP) Hearing to allow a Multi-Unit development at 1934–1966 Hovey Road, we the undersigned strongly emphasize that the Central Saanich Municipal Council is accountable to us as residents and taxpayers and should abide by our Official Community Plan which was developed over a 3 year period with citizens advisory groups, extensive public engagement, professional consultants and substantial cost. We, the undersigned residents of Central Saanich request that:

1. Council abide by the Central Saanich Official Community Plan (OCP) and deny this OCP amendment

2. Council continues to abide by the Official Community Plan in future development matters unless or until the OCP is changed at a future review process involving public input

Please add my name to the Central Saanich municipal council to deny to OCP Amendment for 1934-1966 Hovey Road.

Thank you, Ingrid Friesen 6393 West Saanich Road Saanicton, BC. V8M 1W8

Sharon	Fri,
To: Dr. Ingrid Friesen	

Dear Dr. Friesen,

Thank you so much for your support and for your message! We certainly appreciate it.

There will be a public hearing announced very shortly, and we will let you and all of our supporters know the date.

In the meantime, if you would like to send a message to councillors, that is very helpful. As a matter of fact, I just met with the mayor and one of the councillors yesterday, and they confirmed the importance of hearing from the public.

This is the contact page for the mayor and council: https://www.centralsaanich.ca/municipal-hall/mayor-council

To send to the whole group - Copy and paste into your email program: ryan.windsor@ csaanich.ca,chris.graham@csaanich.ca,zeb.king@csaanich. ca,bob.thompson@csaanich.ca,sarah.riddell@csaanich.ca,gordon.newton@csaanich.ca, niall.paltiel@csaanich.ca,municipal.hall@csaanich.ca

Dear Central Saanich Municipal Council,

I am reaching out to express my strong opposition to the OCP Amendment for 1934–1966 Hovey Road. Two years ago, we relocated to British Columbia and chose the Saanichton region, specifically our current residence on Hovey Road, after conducting thorough research on the area, with a particular focus on prospective development plans. We were cognizant of the Official Community Plan, and its framework provided us with considerable reassurance that this locale would not become overly populated. It is with profound dismay that we now observe the recent proposals regarding amendments to the OCP for this site. Such an amendment would have a substantial effect on the area, especially regarding local wildlife. I wish to strongly express our disapproval and respectfully urge the Central Saanich Municipal Council to reject the OCP Amendment for the properties located at 1934–1966 Hovey Road and abide by the OCP in future development matters.

Kind regards,

Lolo

Ms. Lolo Eckert, BSc., CVT, CVPM, CVPA, MBA

There are much more suitable areas for such a development that would not disrupt existing residential areas and wildlife. Keating X Rd for example. Or the unused driving range on Central Saanich Road.

Get Outlook for Android

Deny OCP amendment Hovey Road

We are requesting Counsel follow the Official Community Plan.

So much time, and thought went into this plan.

Many other areas of Victoria are taking up the densification. Massive apartments being built on sides of the highway, the previously beautifully treed parkway to Langford.

Victoria downtown developer is proposing a 26 floor apartment building. Please keep apartment densification to the City of Victoria.

We have a beautiful municipality. To start to take down homes to build apartments is the beginning of changing our lovely safe, tree friendly, grass for kids to play on community to something we can never ever go back to. Oak bay understands this. Do you see them taking down a block of houses?

As a child we lived on the Gorge. An apartment next door and all the side windows facing our home and back yard, the orphan on the corner. The previous owner didn't sell. My sister and I played in the back yard and looked up seeing people watch us. I wont forget that. It was a very creepy feeling.

Remember, you can't go back. The plan was created for a reason.

Please add my name, Brenda Axon to the below mentioned Petition "To Central Saanich Municipal Council to Deny the OCP Amendment for 1934-1966 Hovey Road."

I am beyond disappointed and at the end of my tether with this current council and the Mayor. This area will completely change and neighbourhoods will be destroyed if they are allowed to go ahead with this plan.

The council appears to believe that they are not accountable to anyone and are forgetting that it is we, the citizens who are paying them to make decisions meant to be in OUR best interests and it is OUR money they are using, especially if they are to enter into legal proceedings over the compulsory purchase of the land at Hovey. Frankly, riding roughshod over the OCP and changing our environment without any consultation from us is appalling and unacceptable . I believe that I have read recently that the council has over-achieved already it's required quota of new dwellings for the area as set out by the BC Government . Multi unit properties are not the answer. They destroy neighbourly interaction and are ugly. Central Saanich is a rural/semi rural area and should remain so. In the future with climate change, we may need all the land we can get in order to produce food and we cannot use it if it's been concreted over.

Having previously had dealings for several years with the council and the CRD Parks Committee, as a member of the Committee of Friends of Island View Beach, my experience tells me that even though these bodies might have public meetings, they already have made up their minds about what they wish to do, and the meetings are simply for show to make it appear they are willing to listen. We know that, because the majority of the time, they go ahead with their plans anyway.

Thank you for creating your website and taking some action. Kind regards Bren Axon

Hi there

I would like to add my name to the petition- I am not able to print out the petition as no printer.

I am appalled by what's happening in Central saanich - with the new towers at mt newton, new condos at the old medical clinic, Possible new towers where central municipal hall is, and new construction across from centennial park- it's way too much - turning into a mini Langford - traffic will be terrible.

Too much development in such a quiet farmland area.

I have lived here for 26 years

To Central Saanich Council

Save Our Neighbourhoods & Hovey Road from Development that Violates our Official Community Plan

With regard to the *Official Community Plan* (OCP) Hearing to allow a Multi-Unit development at 1934–1966 Hovey Road, we the undersigned strongly emphasize that the Central Saanich Municipal Council is accountable to us as residents and taxpayers and should abide by our *Official Community Plan* which was developed over a 3 year period with citizens advisory groups, extensive public engagement, professional consultants and substantial cost.

We, the undersigned residents of Central Saanich request that:

1. Council abide by the Central Saanich *Official Community Plan* (OCP) and deny this OCP amendment

2. Council continues to abide by the *Official Community Plan* in future development matters unless or until the OCP is changed at a future review process involving public input.

Hello.	_

Mon, Dec 30, 2024 at 10:51

I would like to add my name to the petition. Marie Perrett, I live at 1961 Hovey Rd, Saanichton, BC V8M 1V8.

I live directly across the street from the development proposal.

Thank you for organizing this petition.

Yours sincerely, Marie Perrett

Save Our Neighbourhoods & Hovey Road from Development that Violates our Official Community Plan

With regard to the *Official Community Plan* (OCP) Hearing to allow a Multi-Unit development at 1934–1966 Hovey Road, we the undersigned strongly emphasize that the Central Saanich Municipal Council is accountable to us as residents and taxpayers and should abide by our *Official Community Plan* which was developed over a 3 year period with citizens advisory groups, extensive public engagement, professional consultants and substantial cost.

We, the undersigned residents of Central Saanich request that:

- 1. Council abide by the Central Saanich Official Community Plan (OCP) and deny this OCP amendment
- 2. Council continues to abide by the *Official Community Plan* in future development matters unless or until the OCP is changed at a future review process involving public input.
