Good morning,

Just letting everyone know they are still pushing the yard and garden waste pile next to our house. Still booming, banging and scraping. Although, now the lights are not lighting up our house anymore. I will hazard a guess that grinding will commence in the next couple of hours as the pile is now huge. We would appreciate answers as to why the Municipality and Provincial Government allow this activity, and how much do they collect in revenue for this industrial operation? Must be a lot. Multiple huge buildings, several homes and more than one business operating on this ALR property. I'm assuming that this business collects GST and PST for the province and pays a business licence fee and permits for all the buildings on site. Please forward to Mayor and Council and bylaw. Thank you.
